Let Me Have a Mild CIGAR.

How many thousands of smokers who suffer from loss of appetite, headache, nervous irritability, asthma, etc., and who have tried all possible remedies without success, might be cured if they knew that their sufferings were caused by the intemperate use of strong cicars, and that they should only smoke mild and properly prepared ones.

It is a fact that not all mild cigars agree well with smokers, for in most cases there is a lack of care in the selection of the tobacco, and often the necessary experience for it is wanting, yet there is one brand which sui's the most fastidious smoker, and that is

Gradually the leaders of this body succeeded in stamping out all personal independence on the part of a large number of the workmen of the officers supposed to be an infernal machine,

dangerous doctrines, which have been put and everything in the room are now in the in practice at such fearful cost in our own midst within a month. Unless the Democratic party shall now and at once absolutely disown and condemn all organizations which seek to place the individual under any other control than that of the law, and deprive the citizen of his right of free action, it will perish, as it ought to do, and I desire to emphasize this issue as one which you and your fellow members shall direct your attention. I hope that the next State Convention, and the next

Washington condemned, all secret organizations which undertake to usurp the functions of law, and destroy the free agency of the citizen " Secretary Manuing's Successor. Washington, February 24th.—The question as to who will be Secretary of the Treasury is as unsettled as ever. According to knowing ones, Minister Pendleton and ex-Mayor Grace have about equal chances of being selected, while others are men-tioned with nearly equal frequency. It is positively asserted that the office has been offered to Representative Scott and to the latter only last Sunday. Those who think that an outsider will be nominated hold that Fairchild stands no chance, be cause if the President had any idea of tak-

ing him into the Cabinet, he would probably have been nominated before this, and. at any rate, the President would not have found it necessary to consider any other not done as much considering and consult-ing in the matter as he has been represented, and that he will nominate his man before Congress adjourns. A San Franciscan's Government Claim Ordered Paid.

Washington, February 24th .- The claim of E. P. Nissen of San Franci co against the Government for the transportation of the Stoney Expedition to Alaska in 1885, in the ship Viking, was disallowed in 1885 for want of funds. It has since been several times brought to the attention of Congress and the Navy Department and each time rejected for want of funds. Recently Mr. Morrow has caused an investigation at the Navy Department which has resulted next September, were informed some time in the discovery of the necessary funds, ago by various railroad officials, that the and the bill has been ordered paid.

Can the Universal Consumption be Successfully Treated?

Dr. Borgeon, a leading French doctor, has a new treatment for consumption.

He gives an enema of carbonic acid and sulphuretted hydrogen gases, the latter gas carrying the former into every part of the

throat and lungs.
This treatment, too, is directed at effects the cause remains undisturbed.
What this cause is has been stated by perhaps the highest pulmonary authority in the world, i. e., the Brompton Hospital for the world, i. e., the Brompton Hospital for Consumptives, in London, Eng.
This malady every year carries off from one-seventh to one-lifth of the entire population of England.
Dr. Payne, M. D., M. R. C. P., London, is authority for this statement.
The same or a greater proportion of deaths obtains in America.

Dr. Payne also sevents one helf of the

velop! Dr. Herman Brehmer, an eminent German authority, says that consumption is caused by deficient nutrition of the lungs, by poor blood.

These authorities cannot be disputed.

The medical world recognizes them. The uric acid is the irritant in the blood that causes the development of the seeds which Dr. Drehmer says lie dormant in the Every particle of blood which passes through the lungs and heart, also goes through the kidneys, and if they are in the out. The Brompton Hospital investigation showed that 52 per cent. of the victims of consumption were afflicted with deranged kidneys, which permitted the uric acid poison to remain in the blood and irritate the lungs. This uric acid is always fighting every vital organ, and if there be any inherent weakness in the lungs it inevitably causes pneumonia, cougn and con-

SENATE.

Thursday, February 24, 1887.
The Senate met at 10 o'clock A. M., the President in the chair.
Briceland moved to place S. B. 103 (the Bancroft History bill) on the special file, to which Dray objected, and the matter was dropped.
Goucher moved that Senate Bills 312, 319, 310 and 311, all relating to the Yosemite valley, be placed on the special file for to-morrow. So ordered. The Committee on Federal Relations reported without recommendation Senate joint resolution relating to the election of Federal Senators by the people. Also, that joint resolution for the relief of R. M. Blake, late Chaplain of the army, be adouted.

The Assembly met at 10 a. M., Speaker Jordan presiding. After the reading of the Journal, on motion of Variel, it was ordered that constitutional amendments hereafter passed by the House shall be entered at length on the Journal. Hart asked and obtained leave to introduce a bill to prevent the introduction into the State of Chinese afflicted with leprosy, and providing for the deportation of those now here.

On motion of Ellsworth, A. B. 207, making an appropriation of \$25,600, for the payment of a deficiency in the fund for the support of the State Printing Office, was taken up out of order and read a second time.

Several petitions requesting the Legislature to provide for teaching hygiene in the public schools were referred to the Committee on Education without being read.

The Committee on Commerce and Navigation made an adverse report on A. B. 453, regulating the manufacture of canned goods and to compel the same to be stamped.

The amendment to the rules proposed by Coombs of Napa, restricting speeches to five minutes, except the author of a bill or resolution, who may speak ten minutes, was brought up by the author but failed to get a two-thirds yote, and was lost.

A. B. 459, making appropriations for the support of the government for the 39th and 40th fiscal years, was read a second time and made the special order for 3 o'clock. be adopted.
S. B. 13, relating to the funded indebtedness of counties, was read first time.
White moved that the order of bills on the file be adhered to to-day and to-morrow. So or-

dered.

A number of Assembly messages were then taken up, read and referred. That providing for a conference of State Librarians was adopted by the Senate.

Caminetti introduced a bill to prohibit importation into the State of persons afflicted with leprosy, insanity, etc.

Abbott moved to amend Rule No. 24, limiting debates to ten minutes

Abbott said there was no politics in this matter. It was simply his desire to facilitate legislation. He had himself refrained from discussing important measures at length simply because others had consumed so much of the time of the Senate in long speeches. If it was desired that no legislation at all be accomplished, that was one thing, but it was his desire to open the way for something to be accomplished during the remaining hours of the session.

INVESTIGATING CROOKEDNESS. Efforts to Annihilate Smith's Standing-

He Continues and is Serene. The Assembly Retrenchment Committee having in charge the investigation of Ray W. Falk, Minute Clerk, who has been charged with altering the file, met again yesterday morning. Clerk E. J. Smith, the author of the revelations concerning efforts to tamper with the files of the House, Senater Moffitt and others implicated by Smith

were present. Henry Schwartz was first sworn. He testified that he did not hear Moffitt say to Smith, on Friday last, "No, I will not give you a cent. You have beaten yourself out of \$75 and me out of \$200." Schwartz said he was not in the Capitol on Friday after-noon, and hence Smith could not have seen him there. He added that Smith's reputa-tion for truth was bad. He had heard Louis Kaplan and Charles A. Ackerman say they would not believe him under oath. The witness had employed Ray Falk and always found him reliable and honest. T. B. Mortee, clerk to the Sergeant-at-Arms of the Senate, testified to hearing Smith threaten some of the Assembly clerks, and to hearing him say in the Peerless Saloon that he would make it hot for Moffitt.

Felix Charles corroborated the latter part of this statement.
Senator Moffitt was then sworn. He said he had known Smith about three years, and spoke to him concerning the opium bill, because he had noticed it creeping up remarkably fast. The bill was a notorious "cinch," and he was opposed to it. When he spoke to Smith about it, he accused him of advancing the bill on file, and told him to put it back to its place. Smith asked it there was anything in it, and soon after asked him for money, which was refused. Next morning the bill had taken another comp, and he then wrote the note asking smith to "shove it down."

Senator Murphy testified to a long acquaintance with Smith, the result of which was that he would not believe Smith under

W. H. Ennis, a clerk in the Surveyor-General's office, testified that Smith's repu-tation for truth was bad. Some years ago Smith's fellow clerks in the Assessor's office at San Francisco passed some resolutions upon the eve of his departure to Sacramento, designating him as the "cham-

pion silver-tongued liar."
Senstor Mofflit resumed the stand, and testified to Smith's asking him if there was any money in advancing A. B. 192 on the

file. He had refused to loan Smith \$5, but denied emphatically that he had ever told him "You have beaten yourself out of \$75 and me out of \$200." Chas. A. Weller testified that he had

heard Smith's reputation for truth dis-cussed about the City Hall of San Francisco and thought it generally was bad. George Goodman, Superintendent of th Artificial Paving Company, acknowledged that he had procured the introduction of the bill to pave the Capitol grounds, and that no firm but his could bid for the work should it be passed. He had telegraphed to Smith for a copy and got him to look after it, but never paid him any money.

F. W. Marston, clerk at the Assembly desk, testified to Moffitt asking him in a barber shop who had charge of the Assembly files. Marston told him he did not know, having nothing to do with them

After recess the committee met again testified that during the latter part of last week he was sitting in the lobby of the Assembly with Smith, when Senator Moffitt came along. Smith arose and tried to borrow money from Moffitt. The witness thought Moffitt refused, but could not say positively. At any rate, a conversation oc positively. At any rate, a conversation oc-curred between Smith and Moffitt, during which witness heard Moffitt say: "Well, you have beat yourself out of \$75 and knocked me out of \$200." This was said n a loud voice, and was clearly understood

W. H. Ennis, the Clerk in the Surveyo General's office, was recalled and shown a letter in which it was stated that the "sil er-tongued liar" resolutions, adopted by Smith's fellow-clerks in San Francisco, were merely an attempt to crack a joke at Smith's expense. He stated that he understood the resolutions to be facetious, and not intended as a serious expression of | C. M. PRODGER pinion upon Smith's veracity. Clerk Smith then produced a number of letters recommending him for various po-

sitions and testifying to his good character signed by Hall McAllister, S. H. Dwinelle ex-Judge Daingerfield, Chief Justice R. F. Morrison, Judges Sawyer and Hoffman John S. Enos, Labor Commissione Wheaton & Scriver, Smith's former en ployers, and many other prominent men Mrs. Gilmore, mother of Smith, was then sworn. She testified that Smith entered the employ of Wheaton & Scrivner, lawers, when aged 15, and she followed hi career to the present moment, stating that he had never been discharged or charged with dishonesty in all that time.

Senator Mofflitt said he bad a few mor mestions to put to Smith but he did not are to detain the committee now. Smith produced the order to print the etter heads for Mofflit's Committee on County Governments, showing that the note asking him to "shove down" the opium bill was written subsequent thereto.

Mr. Moffitt remarked, "Oh, it is not nee ssary to go further into that: I acknowl omething to say about it hereafter.

The Weather.

Sergeant Barwick reports .47 of an inch of rain in Sacramento yesterday, making inches to an equal date last year. The barometer was falling quite rapidly up to noon yesterday, since which time it has been rapidly rising. At noon it read 29.96 inches, and at 7 o'clock last night it had risen to 30.08 inches. At 11.50 A. M. yesterday the rain came down quite heavily, caused, no doubt, by the sudden veering of the wind from the south to the west, remaining a short time, and then backing to southwest, and returning again during the afternoon to west. There was a very afternoon to west. There was a very slight shower of hail at the time the heaviest rain fell. The highest and lowest temperatures were 50° and 41°. The dew point at 4 A. M. was 38 4, at 12 noon 39.7, while at 7 o'clock last night it had fallen to

30, owing to the dry and cool westerly wind.

There was a heavy snow-storm on the the previous 24 hours, were as follows:
Sacramento Division Central Pacific— Truckee, snowing and blowing hard. Summit, snowing a little and blowing hard; 4 inches of snow fallen. Cisco, snowing; 3 inches. Emigrant Gap, snowing; 2 inches.
Blue Canyon, snowing and blowing; half an inch. Towles, cloudy. Gold Run, snowing lightly. Colfax and Auburn, cloudy. Newcastle, raining for one hour.

California and Oregon-Montague, cloudy; half an inch of snow fallen. Edgewood, cloudy. McCloud, snowing lightly. Dunsmuir, cloudy. Delta, cloudy; 47 of an inch of rain fallen. Redding, cloudy; 15 of an inch. Red Bluff and Tehama, cloudy. Nord, raining. Chico, raining; .38 of an inch. Biggs, Marysville and Wheatland,

On the California Pacific it was raining at South Vallejo, Napa, Calistoga and Williams, but the rainfall did not amount to plow that had descended the hill to Colfax, driven by two engines, started to return pushed by four, but at Shady Run, between Blue Canyon and Alta, much to the astonishment of the crew working the plow, they found a big drift on the track they had cleared but a short time before, and in that drift they got stalled and could neither advance nor retreat. A force of men was procured to dig the plow out, but it was still "there" late in the evening. Howif any, behind time in its arrival here. The storm ceased about 5 o'clock last evening, and all fears of a possible blockade are over. The same storm appears to have made itself very prominent along the Truckee division, and in Nevada generally, but the fall of snow was not as great as on the hill. The snow-plow that was in service of the California and Oregon road, but became disabled near Dunsmuir, has been repaired here, and is now ready for duty as an extra

In the matter of Murray and Mitchell, charged with robbing a man named Thompson, at Front and K streets, some time since, Deputy District Attorney Brown informed the Court that though diligent search had been made, the proscuting witness could not be found. The report of the committee was adopted, and the meeting, which had been well attended and harmonious, adjourned.

154, which has been fitted up with a "front extension" of her boiler, in which the sparks are arrested instead of passing up into the smokestack, was out yesterday, and went to Dayisville on a trial trip. It is claimed that by this device steam can be made more freely, as well as more economically, and there is no danger of the draft choking up, as it frequently does with the smokestacks now in use. The system is in operation on several roads, and seems to have worked satisfactorily. No. 154 attracted much attention yesterday because of her diminutive smokestack and the small quantity of smoke issuing from it. There is a saving of expense in building smokestacks of this kind, as they are only about a foot in diameter, and eight or ten can be built out of the material used in one of those of the style now prevailing.

STATE BOARD OF CHARITIES.

Conference Upon the Bill to Establish i'-Some Interesting Figures. There was a meeting yesterday morning of the Senate Committee on Public Morals, when E. T. Dooley, of San Francisco, appeared as a representative of the Pacific Coast Conference of Charities, in advocacy of the bill introduced by Senator Steele, to create a State Board of Charities. This bill is the same as Assembly bill 326, as amended by the House Committee on Hospitals.

Torontom Investment of the year of the Senator Steele, to create a State Board of Charities. This bill is the same as Assembly bill 326, as amended by the House Committee on Hospitals. There was a meeting yesterday morning

Mr. Dooley called attention to the resolution of the recent Conference, representing every charity of recognized standing on the entire coast, and urged that the Legislature provide for the immediate establishment of provide for the immediate establishment of such a Board. Such Boards exist in Connecticut, Illinois, Kansas, Massachusetts, Michigan, Minnesota, New Jersey, New York, Ohio, Pennsylvania, Rhode Island and Wisconsin, and are recognized as imperatively necessary, as inevitable in every other State and Territory in the Union, by all who have given thought to the subject. The members of the Board are to have, under the bill, no compensation whatever.

the State.

Would there be any clash of authority between the local Board of Trustees and the State Board? On this point Mr. Doo-ley said "No, because their duties would be supervisory rather than administrative. Its great usefulness would be in the moral sides, and it was also snowing at the northern end of the California and Oregon Railroad, and raining elsewhere. The dispatches received at the railroad office at 7 A. M. yesterday, showing the weather for the previous 24 hours, were as follows:

Sacramento Division of a street of the committee on this subject at the recent National Conference of Charities at St. Paul: "The general sentiment has seemed to be that the committee on this subject at the recent National Conference of Charities at St. Paul: "The general sentiment has seemed to be that the conference of the committee on this subject at the recent National Conference of Charities at St. Paul: "The general sentiment has seemed to be that the conference of the committee on this subject at the recent National Conference of Charities at St. Paul: "The general sentiment has seemed to be the the conference of the committee on this subject at the recent National Conference of Charities at St. Paul: "The general sentiment has seemed to be the conference of Charities at St. Paul: "The general sentiment has seemed to be the conference of Charities at St. Paul: "The general sentiment has seemed to be the conference of Charities at St. Paul: "The general sentiment has seemed to be the conference of Charities at St. Paul: "The general sentiment has seemed to be the conference of Charities at St. Paul: "The general sentiment has seemed to be the conference of Charities at St. Paul: "The general sentiment has seemed to be the conference of Charities at St. Paul: "The general sentiment has seemed to be the conference of Charities at St. Paul: "The general sentiment has seemed to be the conference of Charities at St. Paul: "The general sentiment has seemed to be the conference of Charities at St. Paul: "The general sentiment has seemed to be the conference of Charities at St. Paul: "The general sentiment has seemed to be the conference of Charities at St. Paul: "The general sentiment has seemed to be the conference of Charities at St. Paul: "The general sentiment has s tion to the claims of humanity and mercy this question of economy must be considered, it becomes a matter of importance to ascertain how these imperative obligations can be fairly met by the State with the least cost to the taxpayer. It is evident that, on grounds of both humanity and economy, there should be thorough system in the organization and administration of penal institutions and public charities, careful supervision and inspection, exposure of abuses and the bringing of public sentiment to bear upon officers and employes; for pub-lic sentiment must be our main reliance in

this gigantic work.
"Experience shows that as a general rule these duties cannot be safely left to county, city or local authorities, without the supervision of the State. Even with the most careful supervision cases of at South Vallejo, Napa, Calistoga and Williams, but the rainfall did not amount to much, except at Napa, where there was .28 of an inch and Calistoga .41 of an inch. At other stations the weather was cloudy.

The snow-storm on the hill was rendered more troublesome yesterday by a wind-storm. During the afternoon a snow-plow that had descended the hill to Colfax, are raised to positions in which there is considered more troublesome with the colfax are raised to positions in which there is a general rule it is found. no appeal. To the objection, whether the State has a right to any control or supervision over the inmates of any private institution, the speaker replied that in free as well as still "there" late in the evening. However, another plow, with seven engines behind it, was coming over from Truckee, and, it was expected, would clear a passage through the snow, and be able to help the imprisoned plow if necessary, and prevent this morning's passenger train from being much wholly or in part, such inmates, for there can be no duty imposed upon State or in-

Mr. Dooley then called the attention of the committee to facts and figures bearing upon what he termed the peculiar condition in this State, which, it seemed to him, ought to be conclusive as to the necessity of this proposed Board. The speaker, continuing, made extended remarks upon the present uneconomical and ineffective method of caring for the indigent children of the State following being the substance of the state of the state following being the substance of the state following being the substance of the state of the state following being the substance of the state of t od of caring for the indigent children of the State, following being the substance of

From the books of the State Board of

Examiners we learn that there were on the 30th day of June last 3,428 children denominated as half-orphans, orphans, abandoned and foundlings, maintained at the State's expense in private asylums—without a dollar for inspection, supervision or placing children in homes—at a cost of \$229.941 06. The number of children credited to asylums in the foregoing is as reported by the different institutions with their claims upon the State Treasury for the last half of the last fiscal year The number reported for the preceding six months was 3,810. Even this astonishing number does not probably cover the total uvenile population of these institutions, or ome within perhaps 500 of it, for the law upposes that there is a considerable number of these young people supported by their own relatives, and without any claim upon the State fund. Indeed the popula-tion of the asylums for indigent children in California may safely be set at not less than 4,100. Of these, the half-orphans number 71½ per cent.; orphans, 16½ per cent.; abandoned and foundlings, 12 per Of the moneys paid for their support by the State, secular or non-sectarian nstitutions received 19 per cent.; Protest ant institutions. 11 1-10 per cent.; the Hebrew Orphan Asylum, 21 per cent.; Catho-

lic institutions, 67 4-10 per cent. The average time paid for by the State for each of assemblage to order. A. J. Rhoads was elected Chairman, and B. W. Cavanaugh cent. of the entire year. One conclusion from these figures, be-sides many others that ought to be startling is that these children are retained for an indefinite period—it being plain from the data at hand that the common treasury supports a body of children from year to year composed of the same individuals to the extent of eighty-five out of every one

From such information as I have, I presume the figures here given fall not less than 3,000 short of the actual number— though the balance would be under county or private asylum care—and that California has at least 14,000 of the classes here under

We take no cognizance of delinquent or dependent, save to punish, or bury in some institution. Every prosecuting officer makes it the glory of his term of office, and his title to re-election that he has secured—not the ends of justice, but—so many convictions. The casual delinquencies of neglected children are stretched into crime, and children are stretched into crime, and children of eleven and twelve years have been found convicts in our State Prisons. And thus, for parental negligence—the offense of having bad parents—is often imposed the fearful penalty of consignment, and by a minister of the law—to a life of misery and degradation.

Severe, indeed, upon the individual; harder still upon the community—upon us—are the results of such desperate, artificial measures. Can the "American idea" be fostered by such means?

We need a State Board of Charities to take this great question—for it is only one the community and the state thought tramps perpetrated to take this great question—for it is only one the community—to pon us—for the primary election.

For every social or political disorder somebody stands ready to propose an institution, until we have gone institutionmad. Are well-filled institutions a mark of social and material progress? No, but the reverse. Gentlemen, this bill, viewed both from a moral and economic standpoint, is incomparably the most important bill before the Legislature. No one can possibly question this truth who honestly looks into the matter. It is no "crank" proposition, but one of the best approved measures devised. It is no "new wrinkle," ministration of the charitable concerns of easures devised. It is no "new wrinkle. ither, having been successfully tried in all the great States. If you can find in it any "long pole" looking to the special advantage of any individual or the detriment of any good interest, reject it. Let it be only half understood and it is bound to go Tho

The committee asked numerous ques tions during the session and exchanged views. It is believed they will submit a unanimous approval of the bill under consideration, for establishing a State Board of Charities, and urge its passage, both as to the better results to be attained thereby, and the great economy to be effected by the State, amounting to nearly a quarter of a million dollars in the next two years.

LOST HORSE AND WAGON .- William Mc Cants called at the police office yesterday morning and asked the assistance of the police in finding his horse and wagon, which his son William and another young man, Charles Harvey, took last Tuesday night to go out into the country to a dance, since which time he had neither seen them nor the property. Carter Jackson soon afterwards found the two youths at Fourth and K streets, and took them to the stationhouse, where they were interviewed con-cerning the whereabouts of the horse and wagon, but all they seemed to know about it was that some one stole the rig from hem while they were at the dance.

SARSFIELD, of Sacramerto, became fortunately possessed of certain valuable remedial agents. With these he effected in Sacramento and Central California remarkable cures, and drew the approving attention of many physicians. So widespread became the fame of his remedies, that business men were convinced of their entire reliability, and of the truth of the marvels they accomplished. The result has been the formation of a Company to aid him in putting these needs for suffering humanity broadly upon sale. The Company has its Depot at No. 115 EDDY STREET, SAN FRANCISCO, but the medicines can be had of all reputable druggists.

Cheap and rapid transportation is of the utmost importance to those who are both producers and consumers. It cheapens all that he buys and enhances the price of all he produces. The "LANGFORD COLONY" is most advantageously situated in this respect. It is between two railroads that both connect with steamboats that run from the Sacramento and San Joaquin points to the Golden Gate. This gives the cheapest freight and passenger rates for the distance n this Coast. The markets for all kinds of products are good. The Canneries, Wineries and \$1.60. Fruit Dealers take all the Fruit raised, at highly remunerative prices. There is an unlimited demand for all the Wine, Raisins, Figs, Prunes, Green, Dried and Canned Fruits that can be grown. Dairy Products, Fowls, Eggs and Vegetables find a ready sale. Every acre of this land when in bearing Fruit Trees or Vines will net \$100 per acre. For further particulars apply to

The following words, in praise of Dr. Pierce's Favorite Prescription as a remedy for those delicate diseases and weak-nesses peculiar to women, must be of interest to every sufferer from such maladies. They are fair samples of the spontaneous expressions with which thousands give utterance to their sense of gratitude for the inestimable boon of health which has been restored to them by the use of this world-famed medicine.

THROWN AWAY.

JOHN E. SEGAR, of Millenbeck, Va., writes:
"My wife had been suffering for two or three years with female weakness, and had paid out one hundred dollars to physicians without relief. She took Dr. Pierce's Favorite Prescription and it did her more good than all the medicine given to her by the physicians during the three years they had been practicing upon her."

Mrs. Groner Hypern, of Westfield, N. Y. THE GREATEST

EARTHLY BOON.

Mrs. GEORGE HERGER, of Westpeak, N. I.,
writes: "I was a great sufferer from leucorrhea, bearing-down pains, and pain continually across my back. Three bottles of your
'Favorite Prescription' restored me to perfeet health. I treated with Dr. —, for
nine months, without receiving any benefit.

The 'Favorite Prescription' is the greatest earthly boon to us
poor suffering women."

Mrs. GEORGE HERGER, of Westfield, N. Y.,

THREW AWAY

Mrs. Sophia F. Boswell, White Cottage.O., writes: "I took eleven bottles of your 'Favorite Prescription' and one bottle of your 'Pellets.' I am doing my work, and have been for some time. I have had to employ help for about sixteen years before I commenced taking your medicine. I have had to wear a supporter most of the time; this I have laid aside, and feel as well as I ever did." Wish a reversion of Nunica, Ottawa Co.

Mrs. May Gleason, of Nunica, Ottawa Co.

Mich., writes: "Your 'Favorite Prescription' has worked wonders in my case.

Again she writes: "Having taken several bottles of the 'Favorite Prescription' I have regained my health wonderfully, to the astonish, attending to the duties of my household.

TREATING THE WRONG DISEASE.

Many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous exhaustion or prostration, another with pain here or there, and in this way they all present alike to themselves and their easy-going and indifferent, or over-busy doctor, separate and distinct diseases, for which he prescribes his pills and potions, assuming them to be such, when, in reality, they are all only symptoms caused by some womb disorder. The physician, ignorant of the cause of suffering, encourages his practice until large bills are made. The suffering patient gets no better, but probably worse by reason of the delay, wrong treatment and consequent complications. A proper medicine, like Dr. Pierce's Favorite Prescription, directed to the cause would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery.

distressing symptoms, and instituting comfort instead of prolonged misery.

Mrs. E. F. Morgan, of No. 71 Lexington St., East Boston, Mass., says: "Five years ago I was a dreadful sufferer from uterine troubles. Having exhausted the skill of three physicians. I was completely discouraged, and so weak I could with difficulty cross the room alone. I began taking Dr. Pierce's Favorite Prescription and using the local treatment recommended in his 'Common Sense Medical Adviser.' I commenced to improve at once. In three months I was perfectly cured, and have had no trouble since. I wrote a letter to my family paper, briefly mentioning how my health had been restored, and offering to send the full particulars to any one writing me for them, and enclosing a stamped-engainst the adrended from the commenced the use of 'Favorite Prescription,' had sent the St.50 required for the 'Medical Adviser,' and had applied the local treatment so fully and plainly laid down therein, and were much better already."

JEALOUS DOCTORS.

JEALOUS DOCTORS.

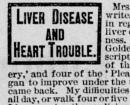

JEALOUS
Of Crystal, Mich., writes: "I was troubled with female weakness, leucorrhea and falling of the womb for a good part of the time. I doctored with an army of different physiciaus, and spent large sums of money, but received no lasting benefit. At last my husband persuaded me to try your medicines, which I was loath to do, because I was prejudiced against them, and the doctors said they would do me no good. I finally told my husband that if he would get me some of your medicines, I would try them against the advice of my physician. He got me six bottles of the 'Favorite Prescription,' also six bottles of the 'Discovery' and four of 'Favorite Prescription,' and I have been a sound woman for four years. I then gave the balance of the medicine to my sister, who was troubled in the same way, and she cured herself in a short four years."

THE OUTGROWTH OF A VAST EXPERIENCE.

The treatment of many thousands of cases of those chronic weaknesses and distressing all ments peculiar to females, at the invalide and surgical Institute, Buffalo, N. Y., has afforded a vast experience in nicely adapting and thoroughly testing remedies for the cure of woman's peculiar madied and is invaluable in allaying and strengthening for the cure of woman's peculiar madied and is invaluable experience. LIVER, BLOOD AND LUNG DISEASES.

HEART TROUBLE.

In regard to my health, being afflicted with liver disease, heart trouble, and female weakness. I was advised to use Dr. Pierce's Golden Medical Discovery, Favorite Prescription and Pellets. I used one bottle of the 'Prescription,' five of the 'Discovery, favorite Prescription and Pellets. I used one bottle of the 'Prescription,' five of the 'Discovery, favorite Prescription and Pellets.' My health began to improve under the use of your medicine, and my strength came back. My difficulties have all disappeared. I can work hard all day, or walk four or five miles a day, and stand it well; and when I began using the medicine I could scarcely walk across the room, most of the time, and I did not think I could ever feel well again. I have a little baby girl eight months old. Although she is a little delicate in size and appearance, she is healthy. I give your remedies all the credit for curing me, as I took no other treatment after beginning their use. I am very grateful for your kindness, and thank God and thank you that I am as well as I am after years of suffering."

LIVER DISEASE.

Mrs. I. V. Webber, of Yorkshire, Cattaraugus Co., N. Y., writes: "I wish to say a few words in praise of your 'Golden Medical Discovery' and 'Pleasant Purgative Pellets.' For five years previous to taking them I was a great sufferer; I had a severe pain in my right side continually; was I am now well and strong, thanks to your medicines." Chronic Diarrhea Cured.—D. LAZARRE, Esq., 275 and 277 Decatur Street, New Orleans, La., writes: "I used three bottles of the 'Golden Medical Discovery,' and it has cured me of chronic

LIVER DISEASE Writes: "I addressed you in November, 1884, in regard to my health, being afflicted with DEBILITY.

chilis, nervous and general debility, with frequent sore throat, and my mouth was badly cankered. My liver was inactive, and I suffered much from dyspepsia. I am pleased to say that your 'Golden ailments and I cannot say enough in their praise. I must also say a word in reference to your 'Favorite Prescription,' as it has proven itself a most excellent medicine for weak females. It has been used in my family with excellent results." Dyspepsia.—James L. Colby, Esq., of Yucatan, Houston Co., Minn., writes: "I was troubled with indigestion, and would eat heartily and grow poor at the same time. I experienced heartburn, sour stomach, and many other disagreeable symptoms common to that disorder. I commenced taking your 'Golden Medical Discovery' and 'Pellets,' and I am now entirely free from the dyspepsia, and am, in fact, healthier than I have been for five years. I weigh one hundred and seventy-one and one-half pounds, and have done as much work the past summer as I have ever medicine that seemed to tone up the muscles and invigorate the whole system equal to your 'Discovery' and 'Pellets."

Dyspepsia. - Theresa A. Cass, of Springfield, Mo., writes: "I was troubled one year with liver complaint, dyspepsia, and sleeplessness, but your 'Golden Medical Discovery' cured me." I took your Discovery' and it stopped them in a very short time."

"THE BLOOD IS THE LIFE."

Thoroughly cleanse the blood, which is the fountain of health, by using Dr. Pierce's Golden Medical Discovery, and good digestion, a fair skin, buoyant spirits, and bodily health and vigor will be established.

Golden Medical Discovery cures all humors, from the common pimple, blotch, or eruption, to the worst Scrofula, or blood-poison. Especially has it proven its efficacy in curing Salt-rheum or Tetter, Fever-sores, Hip-joint Disease, Scrofulous Sores and Swellings, Enlarged Glands, and Eating Ulcers.

Rev. F. Asbury Howell, Pastor of the M. E. Church, of Silverton, N. J., says: "I was afflicted with catarrh and indigestion. Boils and blotches began to arise on the surface of the skin, and I experienced a tired feeling and dullness. I began the use of Dr. Pierce's Golden Medical Discovery as directed by him for such complaints, and in one week's time I began to feel like a new man, and am now sound and well. The 'Pleasant Purgative Pellets' are the best remedy for bilious or sick headache, or tightness about the chest, and bad taste in the mouth, that I have ever used. My wife could not walk across the floor when she began to take your 'Golden Medical Discovery.' Now she can walk quite a little ways, and do some light work."

Mrs. Ida M. Strong, of Ainsworth, Ind., writes:
"My little boy had been troubled with hip-joint disease for two years. When he commenced the use of your 'Golden Medical Discovery' and 'Pellets,' he was confined to his bed, and could not be moved without suffering great pain. But now, thanks to your 'Discovery,' he is able to be up all the time,

pain, and can cat and sleep as well as any one. It has only been about three months since he commenced using your medicine. I cannot find words with which to express my gratitude for the benefit he has received through you."

ATERRIBLE Of Cambridge, Maryland, says: "Mrs. Eliza Ann Pooles, wife of Leonard Poole, of Williamsburg, Derelester Co., Mid., has been cured of a bad case of Eezema by using Dr. Pierce's Golden Medical Discovery. The disease appeared first in her feet, extended to the knees, covering the whole of the lower limbs from feet to knees, then attacked the cibows and became so severe as to prostrate her. After being treated by several physicians for a year or two she commenced the use of the medicine named above. She soon began to mend and is now well and hearty. Mrs. Poole thinks the medicine has saved her life and prolonged her days."

Mr. T. A. Ayres, of East New Market, Dorchester County, Mid., vouches for the above facts.

Consumption, Weak Lungs, Spitting of Blood

Consumption.—Mrs. Edward Newton, of Harrowsmith, Ond., writes: "You will ever be praised by me for the remarkable cure in my case. I was so reduced that my friends had all given me up, and I had also been given up by two doctors. I then went to the best doctor in these parts. He told me that medicine was only a punisiment in my case, and would not undertake to the best doctor in these parts. He told me that medicine was only a punisiment in my case, and would not undertake to treat me. He said I might try Cod liver oil is a last treatment, but I was so weak I could not keep it on my stomach. My busband, not feeling satisfied everything he saw advertised for my complaint, procured a quantity of your 'Golden Medical Discovery.' I took only four bottles, and, to the surprise of everybody, an to-day doing my own work, and ann entirely free from that terrible cough which harrassed me night and day. I have been afflicted with rheumatism for a number of years, and now feel so much better that I believe, with a continuation of your 'Golden Medical Discovery,' I vill be restored to perfect health. I would say to those who are falling a prey to that terrible disease, and thereby save a great deal of suffering and be restored to health at once.
